# PEOPLE'S LEADER

Juche 109 (2020)

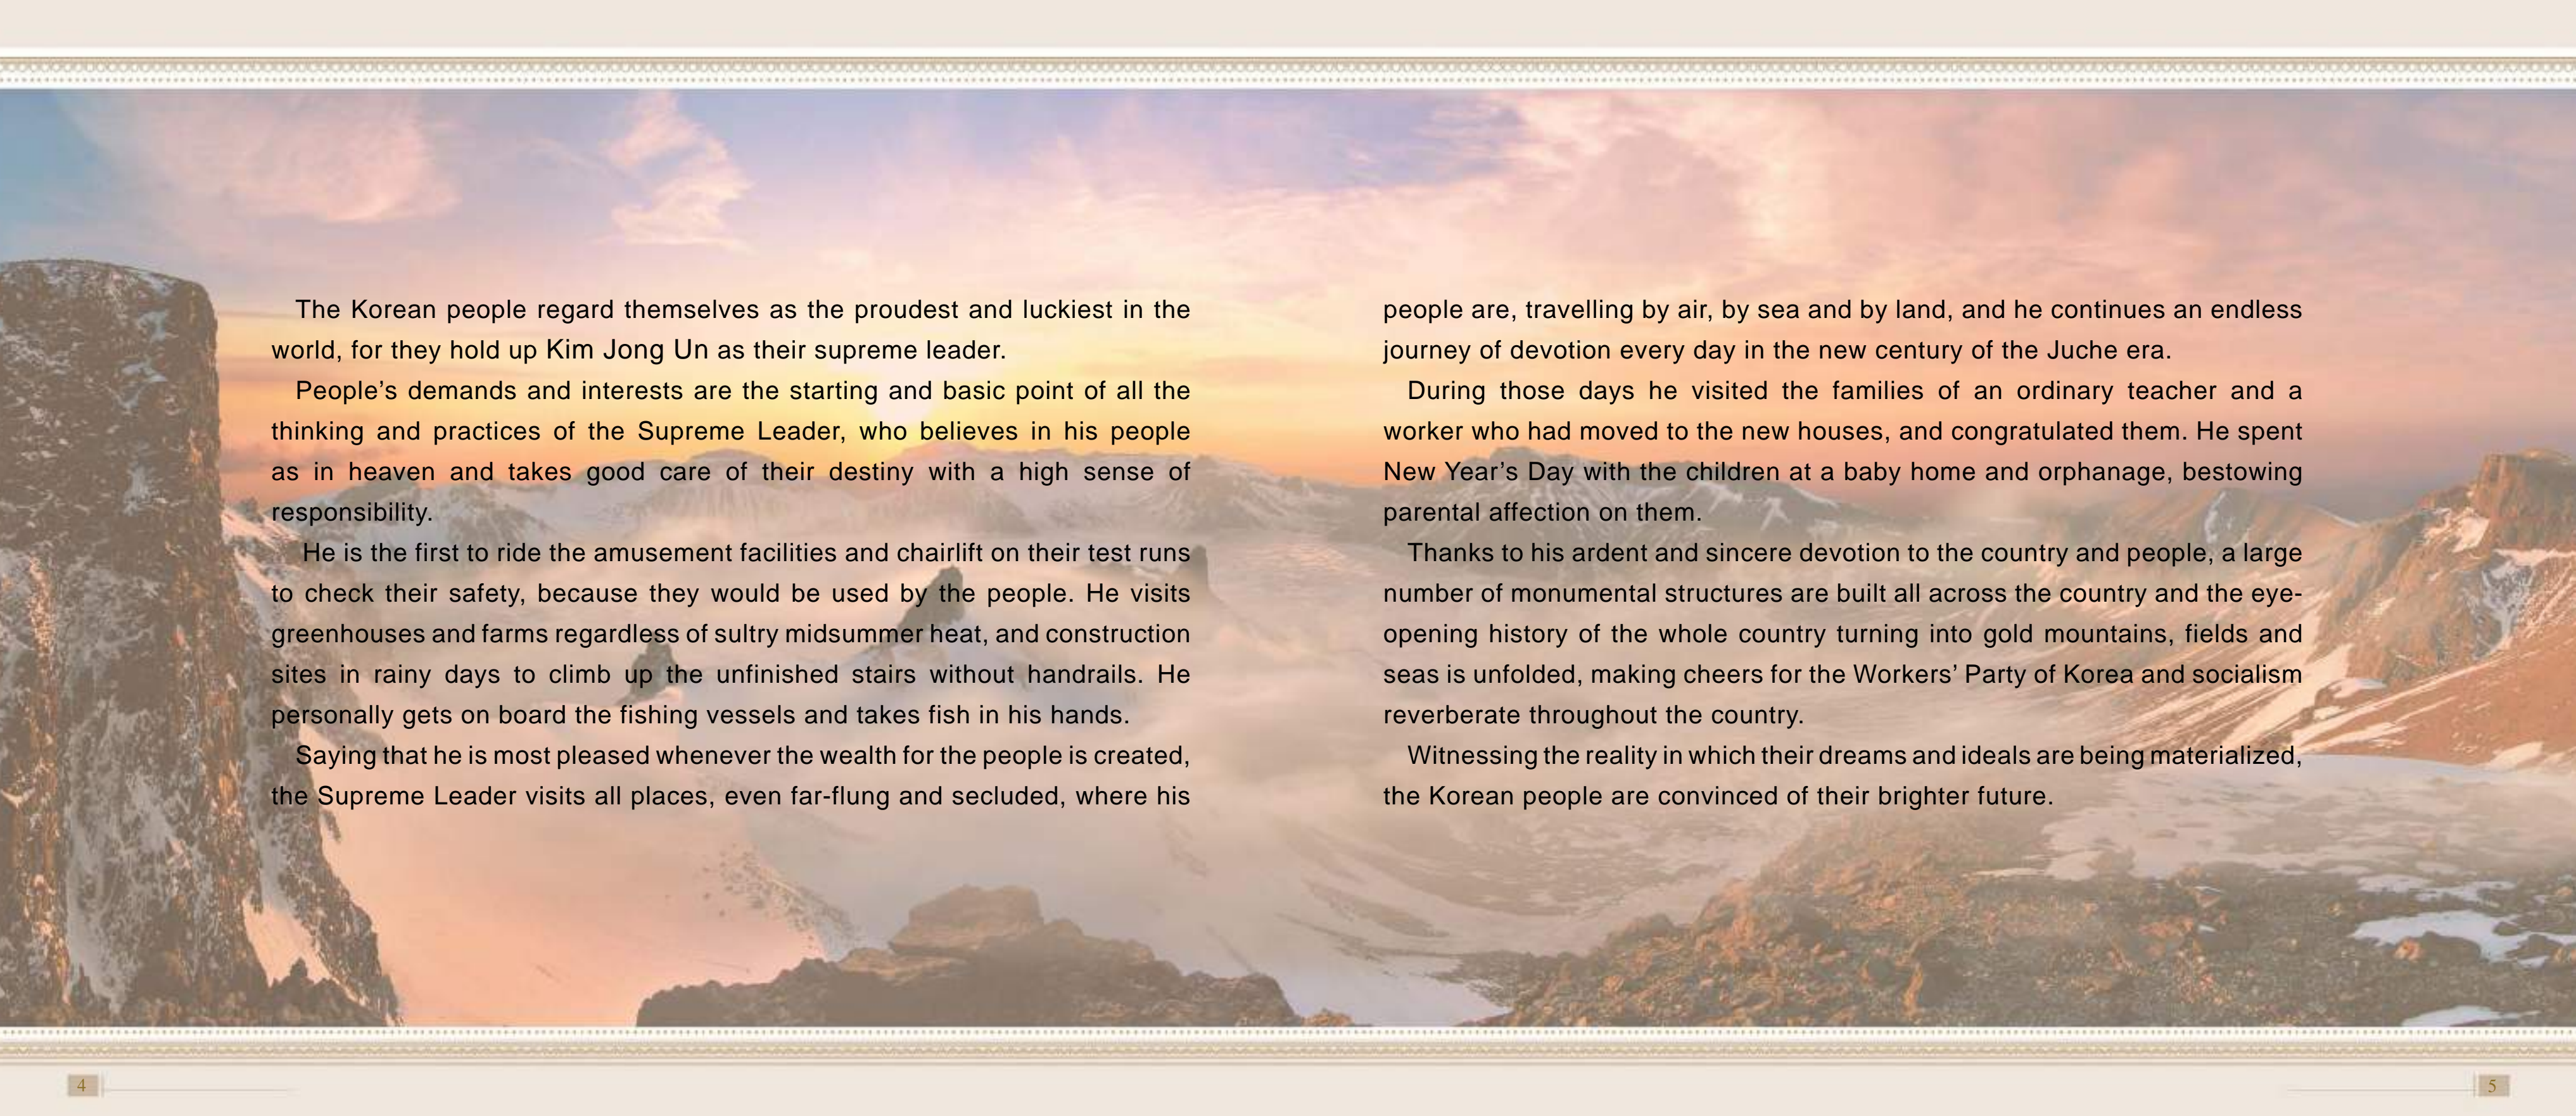

**I will devote myself for  
the sake of the socialist  
country and its people, as  
I was entrusted by General  
Kim Jong Il.**

**KIM JONG UN**

The Korean people regard themselves as the proudest and luckiest in the world, for they hold up Kim Jong Un as their supreme leader.

People's demands and interests are the starting and basic point of all the thinking and practices of the Supreme Leader, who believes in his people as in heaven and takes good care of their destiny with a high sense of responsibility.

He is the first to ride the amusement facilities and chairlift on their test runs to check their safety, because they would be used by the people. He visits greenhouses and farms regardless of sultry midsummer heat, and construction sites in rainy days to climb up the unfinished stairs without handrails. He personally gets on board the fishing vessels and takes fish in his hands.

Saying that he is most pleased whenever the wealth for the people is created, the Supreme Leader visits all places, even far-flung and secluded, where his

people are, travelling by air, by sea and by land, and he continues an endless journey of devotion every day in the new century of the Juche era.

During those days he visited the families of an ordinary teacher and a worker who had moved to the new houses, and congratulated them. He spent New Year's Day with the children at a baby home and orphanage, bestowing parental affection on them.

Thanks to his ardent and sincere devotion to the country and people, a large number of monumental structures are built all across the country and the eye-opening history of the whole country turning into gold mountains, fields and seas is unfolded, making cheers for the Workers' Party of Korea and socialism reverberate throughout the country.

Witnessing the reality in which their dreams and ideals are being materialized, the Korean people are convinced of their brighter future.

## Together with the People on the Road of Self-reliance and Self-development

*We will step up the building of a powerful socialist country in our own way and by our own efforts!*

This is the unshakable faith and will of Supreme Leader Kim Jong Un and all the Korean people firmly rallied around him.

The Supreme Leader continues an endless journey of field guidance, inspiring the people with vigour and courage to advance vigorously holding high the banner of self-reliance and self-development.

Thanks to his seasoned and sophisticated leadership and dynamic efforts of the people who have turned out in hearty response of his patriotic call, a great heyday of creations and changes is being unfolded in the DPRK.
